Section I – Disposal of the Company's Control

Article 37. The disposal of the Company's control, directly or indirectly, by means of a single transaction or successive transactions, may be contracted subject to the condition whereby the Control's buyer undertakes to make the public offering of shares issued by the Company owned by the other shareholders, with due regard for the conditions and terms established by the applicable law and regulations in effect and by the *Novo Mercado* Regulations, in such a manner as to provide equalitarian treatment thereto compared to that provided to the seller.

Sole Paragraph. For the purposes of this Section, control and its related terms means the power actually exercised by shareholders to direct the Company's activities and instruct the operation of the Company's bodies, directly or indirectly, 'de facto' or legally, regardless of the equity interest held.

Section II – Delisting as Publicly-Held Company and Withdrawal from *Novo Mercado*

Article 38. The public offering of shares to be made by the Controlling Shareholder or by the Company for delisting as a publicly-held company shall be made at fair price, under the terms of the legal and regulatory rules in effect.

Article 39. The voluntary delisting from *Novo Mercado* may occur (i) regardless of whether the public offering of shares mentioned in the previous article is held if a waiver by a Shareholders' Meeting is approved; or (ii) in case such waiver is not conceded, if preceded by a public offering of shares that follows the procedures required by CVM regulation governing public offering of shares held to cancel registration as a public company, if the following requirements are observed:

(a) the offered price shall be fair, so that a new appraisal of the Company may be requested in the manner established by Article 4-A of Brazilian Corporation Law; and

(b) shareholders who hold more than one third (1/3) of the outstanding shares shall accept the public offering of shares or expressly agree to delist without a sale of shares.

Paragraph 1. For the purposes of this article, outstanding shares means only the shares held by shareholders that expressly agree with the delisting from *Novo Mercado* or enroll for the public offering of shares auction, in accordance with the rules issued by CVM governing public offering of shares held to cancel registration as a public company.

Paragraph 2. If the quorum referred to in the previous paragraph is reached: (i) the acceptors of the public offering of shares shall not be subjected to apportionment in selling their shares, provided that the ownership limit waiver procedures stipulated in the rules issued by CVM for public offering of shares are observed; and (ii) the offeror is obliged for a period of one (1) month starting on the auction date to buy the remaining outstanding shares at the final price reached in the auction, updated to the date of actual payment as per the terms of the bidding notice and the applicable laws and regulations, which payment must occur within, at most, fifteen (15) days from the date on which the shareholder exercises this discretion.

Article 40. If there is no controlling shareholder and B3 determines that the quotations of the securities issued by the Company be disclosed separately or that the trade of securities issued by the Company be suspended in *Novo Mercado* due to the default of the obligations set forth in the *Novo Mercado* Regulations, the Chairman of the Board of Directors shall call, within up to two (2) days as from such determination, computing only the days on which the newspapers usually used by the Company are distributed, a Special Shareholders' Meeting for replacement of the entire Board of Directors.

Paragraph 1. If the Chairman of the Board of Directors fails to call the Special Shareholders' Meeting referred to in the main provision hereof within the established term, it may be called by any shareholder of the Company.

Paragraph 2. The new Board of Directors elected at the Special Shareholders' Meeting referred to in the main provision hereof and in paragraph 1 of this article shall remedy the default of the obligations established in the *Novo Mercado* Regulations as soon as possible or within a new term to be granted by B3 for that purpose, whichever is shorter.

Article 41. The valuation report of the Company for purposes of determining the fair price and/or economic value, as the case may be, shall be prepared by a specialized company with proven experience and which is independent from the Company, its managers and the controlling shareholder and from their decision power, and the report shall also meet the requirements of paragraph 1 of article 8 of the Corporation Law and contain the liability set forth by paragraph 6 of the same article 8.

Sole Paragraph. The costs incurred to prepare the required valuation report shall be fully borne by the offering shareholder.

Section III - Protection Against Dispersion of the Shareholding Basis

Article 42. Any New Relevant Shareholder (as defined in paragraph 11 of this article) that purchases or becomes the holder of shares issued by the Company or of any other rights, including usufruct or trust on shares issued by the Company in any quantity equal to or greater than thirty-three point thirty-four percent (33.34%) of its capital shall carry out a public offering of shares for purchase of all shares issued by the Company, with due regard for the provisions of the applicable regulations of the CVM, the B3 regulations and the provisions of this article. The New Relevant Shareholder shall request the registration of said offering within, at most, thirty (30) days as from the date of purchase or as from the event that resulted in the title to the shares in rights in any quantity equal to or greater than thirty-three point thirty-four percent (33.34%) of the Company's capital.

Paragraph 1. The public offering of shares shall be (i) indistinctively addressed to all shareholders of the Company; (ii) made in an auction to be held at B3, (iii) launched at the price determined in accordance with the provisions in paragraph 2 of this article; and (iv) paid in cash, in Brazilian currency, upon purchase in the offering of shares issued by the Company.

The purchase price in the public offering of each share issued by the Company shall not be smaller than the greatest amount between (i) one hundred and thirty-five percent (135%) of the economic value ascertained in a valuation report; (ii) one hundred and thirty-five percent (135%) of the issue price of shares obtained in any capital increase made upon public distribution occurred in the period of twenty-four (24) months preceding the date when it becomes mandatory to carry out the public offering of shares in accordance with this article, an amount which shall be duly restated by the Extended National Consumer Price Index (IPCA) from the date of issue of shares for the Company's capital increase to the time of financial settlement of the public offering of shares

under this article; (iii) one hundred and thirty-five percent (135%) of the average unit quotation of the shares issued by the Company during the period of ninety (90) days before the offering, weighted by the volume of trading at the stock exchange in which the greatest volume of negotiations of the shares issued by the Company occurs; and (iv) one hundred and thirty-five percent (135%) of the highest unit price paid by the New Relevant Shareholder, at any time, for any share or lot of shares issued by the Company. If the CVM regulations applicable to the offering set forth in this case provides for the adoption of a calculation criterion for setting the purchase price of each share in the Company in the offering that results in a greater purchase price, the purchase price calculated in accordance with the CVM regulations shall prevail in the offering.

Paragraph 3. The public offering of shares referred to in the main provision of this article shall not exclude the possibility of another shareholder of the Company or, as applicable, the Company itself, making a competing offering under the applicable regulations.

Paragraph 4. The New Relevant Shareholder shall be required to meet any requests or requirements of the CVM based on the applicable law in relation to the public offering of shares, within the maximum terms established by the applicable regulations.

Paragraph 5. If the New Relevant Shareholder fails to comply with the obligations imposed by this article, including as regards compliance with the maximum terms (i) to carry out or request registration of the public offering of shares; or (ii) to meet any requests or requirements of the CVM, the Company's Board of Directors shall call a Special Shareholders' Meeting, at which the New Relevant Shareholder shall not vote, to resolve on the suspension of exercise of the rights of the New Relevant Shareholder that fails to comply with any obligation imposed by this article, as provided for by article 120 of the Corporation Law, without prejudice to the liability of the New Relevant Shareholder for damages and losses caused to the other shareholders as a result of the default of the obligations imposed by this article.

Paragraph 6. The provisions of this article shall not apply if a person becomes the holder of shares issued by the Company in a quantity greater than thirty-three point thirty-four percent (33.34%) of the total shares issued by the Company as a result of (i) legal succession, under the condition that the shareholder shall dispose of the surplus of shares within thirty (30) days as from the concerned event; (ii) merger of another company into the Company, (iii) merger of shares of another company into the Company, (iv) subscription of the Company's shares in a single primary issue approved at a Shareholders' Meeting of the Company, called by its Board of Directors, the capital increase proposal of which has

determined that the shares issue price should be set based on the economic value ascertained in an economic and financial valuation report of the Company prepared by a specialized company with proven experience in valuation of publicly-held companies, or (v) exercise of subscription warrants issued by the Company as additional advantage to subscribers of shares in the Company's capital increase exclusively in relation to own preemptive rights (disregarding subscription rights acquired in the market or from third parties) and actually exercised in such capital increase. Furthermore, the provisions of this article shall not apply to Company's shareholders and their successors on the effective date of the Company's adherence to and listing with *Novo Mercado*.

Paragraph 7. The calculation of the percentage of thirty-three point thirty-four percent (33.34%) of the total shares issued by the Company as described in the main provision of this article shall not compute any involuntary increases in equity interest resulting from cancellation of shares kept in treasury or Company's capital reduction with cancellation of shares.

Paragraph 8. The Shareholders' Meeting may release the New Relevant Shareholder from the obligation to carry out the public offering of shares established in this article, if that is in the Company's interest.

Paragraph 9. Shareholders holding, at least, ten percent (10%) of the shares issued by the Company may request the Company's managers to call a special shareholders' meeting to resolve on a new valuation of the Company to be carried out for purposes of review of the purchase price, and any such valuation report shall be prepared based on the same methods of the valuation report referred to in article 41, in accordance with the procedures set forth in article 4-A of the Corporation Law and in compliance with the provisions of the applicable regulations of the CVM, of the B3 regulations and of this Chapter. The costs incurred to prepare the valuation report shall be fully borne by the New Relevant Shareholder.

Paragraph 10. If the special shareholders' meeting referred to above resolves that a new valuation shall be made, and such valuation report ascertains any amount greater than the initial amount of the public offering of shares, the New Relevant Shareholder may give it up, in which case it shall comply, as applicable, with the procedure set forth in articles 23 and 24 of CVM Instruction 361/02, and dispose of the surplus equity interest within three (3) months as from the date of said special shareholders' meeting.

Paragraph 11. For purposes of this article, the capitalized terms below shall have the following meanings:

“New Relevant Shareholder” means any person, including, but not limited to, any individual or legal entity, investment fund, co-ownership, portfolio of notes, universality of rights or any other form of organization that is resident, domiciled or headquartered in Brazil or abroad, or a Block of Shareholders.
